SECTION 1: ASSESSMENT

SUSPENSION AND EXPULSION ASSESSMENT

Suspension and Expulsion Rates

The most current School Accountability Report Card for Vasquez High School lists suspensions and expulsion rates, comparative to the Acton-Agua Dulce Unified School District as a whole, as follows:

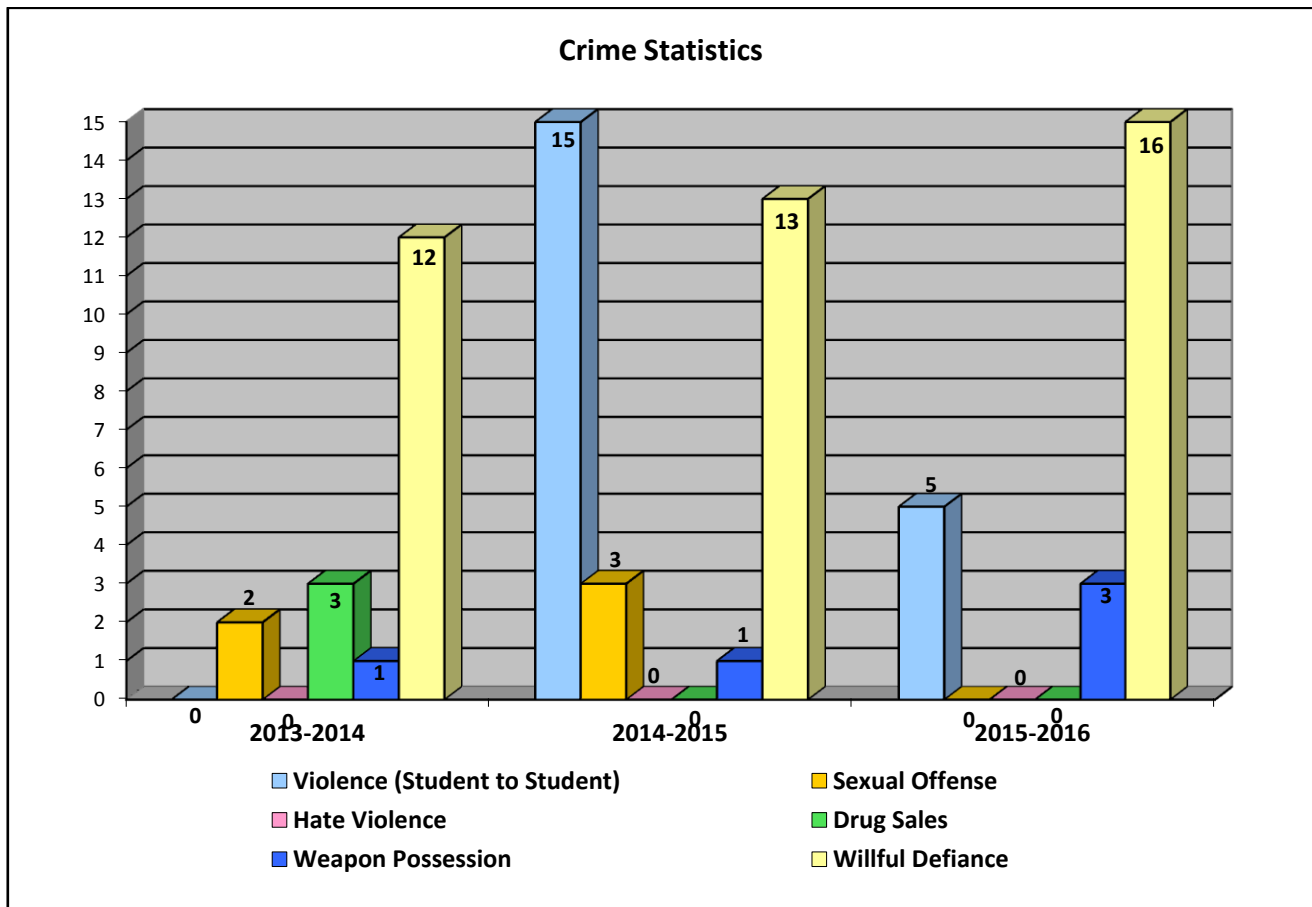

Analysis of Suspension and Expulsion Rates

Vasquez High School's suspension rate and the district expulsion rate have declined steadily in recent years. Expulsion rates across the district have been diminished through the use of alternative placement as an option for students and parents.

Crime Statistics

The following numbers represent expellable offenses over the past three years; the majority of criminal acts are represented by this list. The list is derived from a roster of the principals' recommendation for expulsions; however, all students represented on this for the 2014-2015 school years were mandatory alternative placement in place of expulsion. Students that are "mandatory alternative placement" are sent to our alternate placement program or Virtual Academy, which provides on-line courses. Nonetheless, for the purpose of this report, the data retrieved from pre-expulsion records should more than suffice due to the fairly rigid protocols in recommending a student for expulsion.

Please take note that all incidents are recorded in this chart regardless of the outcome of the pre-expulsion meeting (i.e., the principal ultimately chooses to expel, mandatory alternative placement, dismiss, etc.) as the concern here is with the occurrence of the offense rather than the disposition of the discipline.

Analysis of AERIES Discipline Statistics

Analysis of the above statistics indicates several trends. First, the number of expulsion recommendations for “violence” has decreased significantly. A reduction of recommendations for expulsion in this category reflects both administrative and campus security efforts to implement pro-active programs and safety expectations that generate an atmosphere of compromise and communication. Our alternative placement option in lieu of expulsion had certainly contributed to the reduction in 48900 violations.

Incidents of drug sales and furnishing have dropped to zero incidents ending 14-15 and 15-16 school years. Informal observation indicates that the types of drugs are usually marijuana and alcohol. The presence of marijuana (including edible form) and alcohol are of great concern. The consistent problem with marijuana and alcohol may be linked to a lack of social services for students in the community, and drug and alcohol interdiction services are not provided on campus on a regular basis.

New Trends have emerged and steadily becoming more popular among teens, specifically the use of Electronic Vaporizers. These Vaporizers are known not only to inhale liquid nicotine e-juice, but another substance known to law enforcement as “Honey Oil”, which is a potent and odorless form of Marijuana. The other trend is “Edibles”, a form of Marijuana / THC that is prepared into foods such as candies and baked goods.

SECTION 2: CONCEPT OF OPERATIONS

This disaster plan has been prepared in compliance with California Administrative Code Title 5, Education Code Section 560 and the California Government Code 8607 California Standardized Emergency Management System (SEMS).

Section 8607 of the California Government Code requires that state and local governments including special districts (i.e., schools) be prepared to respond to emergencies using the SEMS. SEMS must also be used to school planning and training.

What is SEMS?

SEMS is a management model used to centralize, organize and coordinate school response to an emergency crisis. This model facilitates the flow of information and resources, the use of standardized terminology and assignments, while allowing you flexibility to expand or contract your operations depending on the scope of the incident.

Purpose

The purpose of this Disaster Preparedness Plan is:

- To provide specific guidelines and procedures for all district personnel to use in responding to emergency situations and to ensure that district personnel will be prepared to respond to any disaster or emergency in an orderly and effective manner.
- To provide the school sites with guidelines for developing supplementary site specific plans.
- To provide guidelines for each school site to use in providing emergency response training to all employees and students.
- To provide each school site with guidelines for the equipment and supplies to have available prior to a disaster.

Site Specific Disaster Plan

The principal of each school or his/her designee will maintain a site specific School Disaster Plan based on the District Disaster Plan (SEMS). The staff of each school must be familiar with the emergency response procedures. All staff members will be trained to meet emergencies and to provide students with the instruction and practice they need in order to respond appropriately during emergencies and disasters. Each school site will use the Incident Command System (ICS) when responding to an emergency.

More than likely, the principal/designee will activate the School's Emergency or Crisis Plan in a major disaster or when an emergency exists or threatens to exist that may impact the safety and well-being of students, employees and surrounding community. When the Emergency Crisis Plan is activated, staff will follow an Incident Command System (ICS). ICS is an organizational structure used by all emergency responders in the State of California when responding to an incident.

Site Specific Disaster Plan (continued)

ICS ensures centralized direction and coordination. Under ICS, one person (the Incident Commander) is in charge of the emergency at the school site. The Incident Commander has full authority to command and direct resources. The principal/designee is typically the Incident Commander.

Depending on the nature and scope of the emergency, the principal/designee may appoint Section Chiefs to oversee the four other functions: Planning, Operations, Logistics and Finance and Administration. If the situation warrants, the principal/designee can perform any or all five functions.

Each school site principal shall make the staff assignments according to the five SEMS functions.

Incident/School Commander

The Management/Command Section is responsible for overall policy, direction and coordination of the emergency response effort during the incident. This Command Section is also responsible for interacting with responding agencies.

Responsibilities:

1. Assess emergency or threat and impact to students, staff, school property and surrounding community.
2. Activate emergency plan and Incident Command System.
3. Establish an Incident Command Post.
4. Develop and communicate a plan of action.
5. Provide district with site specific status report.
6. Authorize any release of public information.
7. Release teachers as appropriate.
8. Declare end of emergency-initiate recovery if appropriate.
9. Remain in charge of your campus until redirected/released by superintendent of schools. or relieved by fire or law enforcement incident commander.

Operations Section

The Operations Section is responsible for coordinating all operations in support of the emergency response and for implementing action plans. This section includes response teams that work toward reduction of the immediate hazard, mitigating damage, and establishing control and restoration of normal operations.

Responsibilities:

1. Coordinate Staff Buddy Assignments
2. Coordinate Student Messengers
3. Coordinate Search and Rescue

9. Make sure teams have enough supplies
10. Reassign staff as needed
11. Schedule breaks and back-ups for staff
12. Coordinate mental health response activities

Planning/Intelligence Section

The Planning and Intelligence Section is responsible for collecting, evaluating, and disseminating information; maintaining documentation; and evaluating incoming information to determine the potential situation in the future.

Responsibilities:

1. Collect all information pertinent to incident (internal and external)
2. Analyze information for potential impacts or changes
3. Prepare and update status reports
4. Manage and update status board

Logistics Section

The Logistics Section is responsible for providing all types of support for the emergency response operation. This section orders all resources from off-site locations and provides facilities, services, personnel, equipment, transportation, and materials.

Responsibilities:

1. Open disaster container
2. Distribute supplies, kits, etc.
3. Set-up various staging area (s) for sanitation, feeding, etc.
4. Sign-in volunteers and assign to various sections needing assistance
5. Determine whether additional equipment, supplies, or personnel is needed
6. Make arrangements for transport of supplies and lodging of personnel

Finance and Administration Section

The Finance and Administration Section is responsible for accounting and financial activities such as establishing contracts with vendors, keeping pay records, and accounting for expenditures. This section is also responsible for all other administrative requirements and acts as the clearinghouse for documentation during the recovery phase.

Responsibilities:

1. Document all supplies redirected to emergency
2. Document all personnel time redirected to emergency (number of hours with description of activities performed)
3. Check with Section Chiefs to determine whether additional supplies, etc. will need to be purchased.
4. Purchase needed items.
5. Document all activities.

Each School Site Disaster Plan must include the following:

- An evacuation route map
- A disaster map showing the location of disaster supplies, student checkout station, first aid area, morgue, and emergency toilet area.
- Current employee assignments during a disaster (search and rescue teams, first aid teams, command center coordinators).
- Student and employee accounting system and forms
- Student check-out procedure.

SECTION 3: PREPAREDNESS EFFORTS

Preparedness

Emergency preparedness at schools starts with school staff emergency preparedness at home. To ensure school staff are able to adequately respond to an emergency, disaster, or event, the following personal preparedness measures should be taken:

1. Create a 72-hour emergency supply kit for the home.
2. Create an emergency car/office kit.
3. Develop a plan to reunite with family members.
4. Pack emergency supplies in the trunk of your car including:
 - Warm clothing
 - Non-perishable food and water.
 - Needed medication and first aid supplies.
 - Personal hygiene supplies.
 - Never let your car become too low on fuel.

In the classroom at the start of each school year teachers should:

1. Remove all heavy items stored on top of cabinets.
2. Lock wheels on movable cabinets.
3. Place student desks away from glass and file cabinets as much as possible.
4. Make certain that file cabinet doors are aimed away from students.
5. Post the emergency evacuation map on your door so that a substitute can find it easily.
6. Post the name of your partner teacher and his/her room number on your door.
7. Walk your emergency exit route. Note overhangs, electrical wires, and other hazards that must be avoided during an evacuation.

Disaster Service Workers

Section 3100 of the California Government Code states that public employees are disaster service workers who are subject to the disaster service activities assigned to them by their superiors or by law. The term *public employees* includes all personnel employed by State of California agencies, California county and city agencies, and public districts. AADUSD employees are designated as disaster service workers. Section 3100 of the California Government Code applies to public school employees for cases in which:

1. A local emergency has been proclaimed.
2. A State of Emergency has been proclaimed.
3. A Federal disaster declaration has been made.

District Responsibilities

In case of a declared emergency by the superintendent during school hours, all students will be required to remain at school or an alternate safe site under the supervision of the school principal or other school staff assigned by the principal or designee. Students will not be permitted to leave the school site until:

1. Regular dismissal time and only if it is considered safe to do so.
2. An adult authorized by the parent or legal guardian whose name appears on the Student Emergency Information Card arrives to pick up the student.

Parent/Guardian Responsibilities

Parents and legal guardians of students will be provided with a Student Emergency Information Card each year. In case of a declared emergency, students will be released only to persons designated on this card. Parents/guardians are responsible for ensuring that information on the Student Emergency Information Card is current at all times.

Parents/guardians are asked to share with the schools the responsibility for informing students what they should do in case of an emergency, disaster, or event. Parents need to give specific directions to each student to follow the policy outlined above and to follow the directions of school personnel.

It is critical that students do not have directions from parents/guardians that are contrary to the District's stated policy on retention at school and authorized release in case of a severe emergency.

Practice Drills

Each school site is responsible for conducting routine earthquake and fire drills. The principal or designee shall keep a record of each drill conducted.

Earthquake Drills

Protective measures to be taken before, during, and after an earthquake must include a program to ensure that the students and the certificated and classified staff are aware of, and have properly trained in, the earthquake emergency procedure system. (Code of Regulations, Section 35297)

The earthquake emergency procedure system shall, but not be limited to, all of the following:

1. A school building disaster plan, ready for implementation at any time, for maintaining the safety and care of students and staffs.
2. A drop procedure which means an activity whereby each student and staff member takes cover under a table or desk, dropping to his or her knees, with the head protected by the

Earthquake Drills (continued)

arms, and the back to the windows. A drop procedure practice shall be held at least once each school quarter in elementary schools and at least once a semester in secondary schools. The principal or designee shall keep a copy of each drill conducted.

Standards for a Successful Earthquake drill:

1. All staff and students can hear the earthquake alarm.
2. Immediately after the earthquake alarm sounds, all staff and students shall perform the **Drop, Cover, and Hold** procedure.
3. Evacuation shall occur when directed by the principal or designee.
4. Teachers and students will gather in an orderly fashion in pre-designated evacuation areas.
5. Teachers will take roll once in the evacuation area. Any missing students will be immediately reported to the principal or designee.
6. Upon sounding the all clear, students and staff will return to their appropriate classroom.

Fire Drills

The principal or designee shall hold a fire drill at least once a month in all elementary and middle schools and at least twice each school year at all high schools. (Code of Regulations, Title 5, Section 550)

The following standards must be met to ensure a successful fire drill:

1. The fire alarm can be heard by all staff and students.
2. Orderly evacuation begins immediately and is completed within minutes of the initial alarm, with minimal congestion at exit gates.
3. Teachers and students will gather in an orderly fashion in pre-designated evacuation areas away from fire lanes.
4. Teachers will take roll once in the evacuation area. Any missing students will be immediately reported to the principal or designee.
5. Upon sounding the all clear, students and staff will return to their appropriate classroom.

Closing of schools

Before school has begun for the day:

If one or all schools cannot open due to hazardous road conditions or other factors, the district superintendent will declare a school closure for one or all schools. Employees will be notified by telephone. The superintendent or designee will notify local radio stations to announce the school closing. If conditions allow, district office personnel, custodians, maintenance personnel, and school secretaries will report to work.

Once school has begun:

School will not close early once the school day has begun. Once school has started for the day, each student will remain at school until the regular dismissal hour or until the student is checked-out by an adult listed on the emergency card. During inclement weather, the site principal or designee will remain on campus until all bus runs have been completed and all students have been picked up from school.

The coordinator of transportation will immediately notify the principal and superintendent if road conditions necessitate the return of students to school.

In the event of an earthquake or other disaster that prevents parents and other designated adults from picking up students, students will remain at school. The district will maintain food and other supplies needed for an extended stay.

School Evacuation

If an individual school must be evacuated due to flooding, fire, or destruction of facilities, students will be evacuated by school bus or other means to another district school site. In this event, the superintendent or designee will notify parents through local radio stations of the evacuation relocation site and will coordinate the evacuation with the principals.

SECTION 5: EMERGENCY RESPONSE ACTIONS

General Responsibilities

If a disaster were to strike during school hours, the primary responsibility is to ensure the safety and security of students and staff. We can expect student flight and panic to some degree, however most students will look to staff for their safety and proper actions in a disaster.

ACTIVE SHOOTER/ARMED INTRUDER ON CAMPUS

Active shooter situations are unpredictable and evolve quickly. Staff members have a very limited amount of time in which to commit to a course of action. Staff should remain calm and immediately assess both the situation and surrounding environment and then respond to the situation based upon their training.

Procedure

1. If an armed assault occurs on or near the campus, personnel who observed the assault should immediately notify the principal or designee and call 9-1-1.
2. The principal or designee will initiate the appropriate response actions, which may include Shelter-in-Place, Lock Down, On-Campus Evacuation, or Off-Campus Evacuation.
3. The principal or designee should also call 9-1-1 and provide the exact location, description and nature of the incident. A designated person should remain on the phone line with the 9-1-1 dispatcher until law enforcement personnel arrive on scene.
4. If it is safe to do so, school staff should attempt to isolate and secure students away from the perpetrator(s). Staff should take steps to calm and control students.
5. School staff and students should remain in secured areas until local authorities arrive and are able to neutralize the perpetrator(s). Inside the classroom, teachers should do the following:
 - Instruct students to lie flat on the floor, move away from doors or windows and remain quite.
 - Turn off lights, lock doors and close any shades or blinds. The goal is to hide and make your room look vacant.

Active Shooter procedure (continued)

- Silence cell phones.
- Remain in the classroom or secured area until further instructions are provided by the school administrator or law enforcement.

AIR POLLUTION/SMOKE FROM AREA FIRES

Superintendent's Responsibilities:

1. When air pollution or smoke has reached a level necessitating the restriction of physical activities during the school day, the warnings and "all clear" will be communicated by the district superintendent or her/his designee to the affected schools.
2. The superintendent or her/his designee will monitor air pollution information for the area through the Southern California Air Quality Management District.

Principals Responsibilities:

1. The principal will apprise the superintendent of any special local condition such as a forest fire.
2. The principal at affected schools will then immediately alert all employees and students to the air pollution levels.

Declared Stage 1 Air Pollution Episode

1. The principal or designee will notify staff and teachers of the existence of a stage 1 episode.
2. Teachers and staff will stop all competitive and running activities upon notification of stage 1 air pollution.
3. Coaches and teachers will postpone all scheduled games to a later date.
4. Coaches and Teachers and other staff members who supervise students with special health problems including asthma, will instruct students to follow precautions recommended by their physicians in refraining from all vigorous or strenuous activities until otherwise noted.

Declared Stage 2 Air Pollution Episode

1. Principal will implement the guidelines given for Stage 1 Air Pollution.
2. The principal will inform the teachers and staff to immediately cancel all outdoor physical activity.

Declared Stage 3 Air Pollution Episode

1. Continue actions taken in Stages 1 and 2.
2. Take additional protective measures deemed necessary.

BOMB THREAT

Bomb threats may come via different mediums, e.g., telephonic, written, email, etc. To effectively respond to any bomb threat, there are precautionary steps that need to be taken. They are:

- Understand your school emergency plan.
- Have pre-established notification procedures.
- Know where to evacuate students if directed to evacuate.
- Be familiar with the facilities know what belongs and what doesn't belong.
- Refrain from using any electronic, cellular or radio devices.

The Threat

1. The person receiving the message of a bomb threat by phone should try to maintain contact with the caller and ask for the location of the bomb, the time it is expected to detonate, the reason for the bomb, etc. (See Appendix B Bomb Threat Report Form)
2. The person receiving the bomb threat must immediately notify:
 - The Principal
 - The Superintendent
 - The Sheriff's Department
 - The Fire Department

Evacuation:

1. The principal or designee will determine, in consultation with law enforcement officials, whether to immediately move students and personnel to a safe area and wait for the arrival of law enforcement officials.
2. Generally, students will be safer in the classroom and should not be evacuated except under extraordinary circumstances.
3. If evacuation is advisable, use the established fire drill routes avoiding any specific area jeopardized by the bomb threat.
4. The principal or designee will inform teachers of the reason for the evacuation.
5. Each teacher will take a current roll sheet to the evacuation location. The teacher will check roll and immediately report to the command center, the names of any students not accounted for.
6. After an evacuation, the principal will direct that the building or area be secured to prevent re-entry.
7. Whenever possible, water, gas and fuel lines leading to the danger zone should be shut off.

Conducting the Search:

1. All searches will be conducted only by the appropriate agency (Fire Department or Sheriff's Department)
2. Report, but do not touch, any suspicious objects.

All Clear

1. The decision to announce "all clear" will be made by the principal in consultation with law enforcement and fire department personnel and the district superintendent.

CHEMICAL ACCIDENT

An area accident involving a tank truck or train containing large quantities of toxic (or unknown) agents may call for immediate disaster procedure action. If the accident might endanger the school population, the following actions will be taken:

Shelter in Place

Shelter in Place may be directed should there be a danger in the community that could present a danger to the school community or a situation at the school that could harm students or staff if they are outdoors. Incidents could include gas leaks, chemical spills, mountain lions or a predator in the neighborhood. When instructed or when an alerting system triggers a Shelter in Place:

1. **Shelter.** Go inside the nearest building or classroom and remain there. Lock the door. You are looking for enclosed protection from the outside. Teachers should quickly check halls and get students into classrooms. Teachers will keep all students in the classroom until the emergency is resolved or directed to evacuate by the principal and/or Public Safety Responders.
2. **Shut.** Close all doors and windows. The tighter and more complete the seal the better. Close as many windows and doors between the outside and your shelter-in-place room as possible.
3. **Listen.** Remain quiet to hear critical instructions from school officials. If there is no direction, continue instructional/work activities until the situation resolves or you are directed to do otherwise.

Superintendent's Responsibilities:

1. The superintendent or her/his designee will monitor the emergency communication system and immediately notify the principals at affected schools in the event of a chemical spill on the roads or railway system within the vicinity of district schools.
2. The superintendent will contact the Sheriff and the Highway Patrol to determine whether an evacuation of students and staff from a school is advised.
3. In the event that an evacuation is required, the superintendent will coordinate the evacuation by doing the following:
 - Contact the Transportation Coordinator to arrange for bus transportation.
 - Contact a neighboring district if additional bus transportation is required.
 - Determine the safest evacuation relocation site. (Another district school or a school in another district will be considered.)

FIRE

As a part of the district fire prevention and safety plan, each employee is directed to ensure that the following regulations and guidelines are followed at all times:

Flammable and combustible liquids: All flammable liquid must be stored only in original containers with appropriate warnings visible. All flammable liquids must be stored in fire resistant closets or containers.

Exits and entrances and passages clear: furniture or other items must never block doors, hallways, and passages. Please make certain that students store their backpacks, jackets, books, etc. off of the floor. Keep cardboard and other flammable materials away from exits. Make certain that students know of any alternative exits in case of fire or other disaster.

Fire Extinguishers: Make certain that you and students know the location of the nearest fire extinguishers. Read the instructions for the extinguishers nearest you. Ask for assistance if the instructions are not clear to you. Remember that a fire is best extinguished at its base so aim the extinguisher hose at the lowest origin of the fire and sweep from side to side.

Drop and Roll: Review with the students that the worst thing to do if their clothing catches on fire is to run. They should "stop, drop, roll, and call for help." To help someone whose clothing is on fire, use a blanket, jacket, or other available material. Starting at the head of the victim, drag the blanket toward the feet, moving the flame away from the face.

Electrical outlets and cords: Frequently inspect all electrical cords in your classroom or work area. Remove any damaged cords. Make certain that cords do not cross any exit, entrance, or passageway. Do not overload electrical outlets.

Report safety problems: Report any safety problems immediately to the principal. Follow up the verbal report with a written one on a maintenance request.

Principal's Responsibilities:

1. The principal will assure that all teachers and instructional aides are familiar with basic fire and safety practices.
2. An evacuation map will be updated and distributed before the first day of instruction each school year.
3. The assembly area must be at least twenty-five feet from a building.

6. The principal will investigate the origin of the alarm in the event that it was not set off at his/her direction.

Teacher's Responsibilities:

Superintendent's Responsibilities:

1. The superintendent will maintain contact with the transportation coordinator to determine whether it is safe for the buses to pick up or deliver students during heavy rains. If it is determined that students cannot safely be transported by bus or cannot safely meet the bus, the superintendent will determine a safe course of action which may include one of the following:
 - Determine that school will not open for the day.

EMERGENCY CAMPUS LOCK DOWN

General Guidelines

- Any employee or community member may request a campus lock down, but the decision to call for a lock down will be made by the principal, superintendent, or designee.
- The principal or designee will see that all teachers and other staff are notified of the need for a campus lock down and of the level of the lock (Level I or II) as soon as the decision has been made.
- As soon as possible after an emergency lock down has been called for, the principal or designee will inform all employees either in writing or verbally of the reasons for the need of a lock down.
- Parents and other community members who ask for the reason for the lock down either in person or by phone will be given the reason as specifically as possible under the given circumstances. Names of any student or parents involved (e.g. custody conflicts) will not be given to maintain confidentiality.
- Teacher discretion will be used in the amount of information given to students based on the age and maturity of the students. Teachers will provide students with information in a calm and reassuring manner.
- Each classroom and the school office will have a copy of the Guidelines for Emergency Campus Lock Down posted for easy referral.

Level I Lock down Sample Situations:

- The school has been informed that a crime has been committed near the school and the criminal has not been apprehended. There is no specific reason to believe that the criminal will come to the school.
- The Sheriff's Department has informed the school that an armed and dangerous person is in the vicinity of the school and all precautions should be taken.
- The school has received a direct credible threat that someone intends to do harm to one or more persons at the school.

Level I Lock down Procedures

Level I Lock down Procedures (continued)

8. If the level I lock down continues during teachers' or aides' break or lunch period, the principal will set up a 10 minute break release schedule if the situation allows. The principal/designee may call for indoor eating with no outdoor recess or postpone lunch if the situation makes this advisable.
9. If the lock down is in effect at school dismissal time, students will not be dismissed until a direction to do so is received from the principal/designee. Dismissal will be delayed until the principal determines that it is safe for students to exit. All teachers will escort their students to the buses.

11. If and when the situation allows, the principal/designee may reduce the level I lock down to a level II lock down.
 - If there is a contract violation as the result of a Level I Lock Down, the AATA building representative, negotiating team members, or officers will be involved in the decision making. If circumstance presents a danger to staff and students and there is not sufficient time to notify an AATA representative, the Level I Lock Down will be implemented without AATA consultation in the interest of the safety of staff and children. The mandated reporter may also be held civilly liable for damages resulting from any injury to the child after a failure to report.
3. When two or more persons who are required to report have joint knowledge of a suspected instance of child abuse, and when they so agree, the telephone report may be made by either of them, and a single report made and signed by that person. Acton-Agua Dulce Unified School District - Nondiscrimination and Fair Treatment of Pupils

AADUSD realizes that a major source of conflict in many schools is the problem of bias and unfair treatment of students (real or perceived) due to ethnicity, gender, race, social class, religion, disability, nationality, sexual orientation, physical appearance, or some other factor. Our schools strive to convey the attitude that all children can achieve academically and behave appropriately, while at the same time appreciating individual differences. AADUSD endeavors to communicate to students and the greater community that all students are valued and respected.

In order to maximize the successful education of all students and help them become productive citizens and lifelong learners in a diverse society, all individuals including student, parents, staff and community members:

- Shall be treated with dignity, respect and fairness.
- Shall be encouraged to maintain high expectations.
- Shall strive to model an appreciation for socio-economic, cultural, ethnic, gender and religious diversity.
- Shall aspire to contribute to an environment of mutual respect, caring and cooperation.

Nondiscrimination (continued)

Acton-Agua Dulce Unified School District encourages students, parents, staff and community members to join together to share a sense of belonging and take pride in our schools, facilities and programs through participation and cooperation in support of the education of all students.

A copy of the "Parent Student Handbook" is provided to each parent/student annually or upon enrollment. This handbook includes information pertaining to:

- Student rights to physical safety
- The protection of personal property (in most cases, not bringing personal property is the best way to protect it).
- The expectation of respect from adults
- The expectation to be free of discrimination on the basis of gender, race, color, religion, ancestry, national origin, ethnic group, marital or parental status, physical or mental disability, sexual orientation or the perception of one or more of such characteristics.

The District's policies on nondiscrimination and sexual harassment support these protections and serve to promote the fair treatment of all students.

Electronic devices

If a disruption occurs, the employee shall direct the student to turn off the device and/or confiscate it. A student who violates this policy may be prohibited from possessing a personal electronic signaling device at school or school-related events.

Students who violate district or school rules and regulations may be subject to discipline, including but not limited to suspension, expulsion or transfer to alternative programs in accordance with Board policy and administrative regulation. In addition, when the conduct involves intimidation, harassment, or other endangerment of a student or employee, the superintendent or designee shall provide appropriate assistance as necessary for the victim and the offender or make appropriate referrals for such assistance.

APPENDIX D: AADUSD EMERGENCY INFORMATION FOR PARENTS

Dear Parent,

In accordance with Board of Trustee policy and California laws, each school in the district has developed specific plans in preparation for a possible emergency or disaster. The purpose is to prepare as much as possible in advance for the safety and welfare of your child. Please review the information below and discuss it with your child.

1. The school will do the following as a part of the district emergency preparedness plan:
2. Regularly scheduled fire and earthquake drills will be conducted at school.
3. Preparation for an emergency or disaster will be reviewed in the classroom.
4. School will not close early once the school day has begun. Students will never be sent home early from school. Once school has started for the day, each student will remain at school until the regular dismissal hour or until the student is checked-out by an adult listed on the emergency card.
5. Should your child need to be evacuated from school, he/she will be taken to the nearest safe location available. Students will be relocated to another district school if possible. You will be able to receive information about this location by listening to one of the Emergency Broadcast Stations:

LANCASTER	PALMDALE	LOS ANGELES	SANTA CLARITA
KAVL 610 AM	KTPL 103.1 FM	KFI 640 AM	KBET 1220 AM

6. School buses will deliver students to school if the buses are in route when an earthquake or other emergency begins. Children will be instructed to continue on their way to school if they are already going to school.
7. Children will be instructed to continue on their way home if they are already going home.
8. If road conditions prevent school buses from continuing their routes home, students will be returned to school, and parents should come to school to pick up their child.
9. Only adults listed on a student's emergency card May sign-out the student from school. They will be asked for identification before the student is released.
10. When you arrive to pick-up your child from school, go to the office. If students have been evacuated from the building, go first to the school office. After you present identification,

you will proceed to the sign-out station. You will need to sign your child out. Your child will be brought to the “Sign-Out Station” to meet you.

11. Teachers and other employee as well as previously identified volunteers will be available to assist on campus.
12. If at all possible, walk to the school. Roads will be blocked with emergency traffic.
13. If you have any questions about the emergency procedures, please contact the school office.

Student Check-Out

After an earthquake or other disaster, students may be evacuated to the field or other safe location. Parents are asked not to park on the access road so that this street may be reserved for emergency response vehicles.

In the event of an earthquake or other disaster, a calm organized release of students to their parents is very important. Please cooperate with the following procedures:

1. Parents must report to the Report-In-Gate. You will give your children’s names and the teachers’ names.
2. You will then go to the Check-Out-Gate. Your child will be brought here while you sign the child out. You may be asked to show picture identification at this time. You will be asked to indicate your destination in case other family members come for the child and need to know where the child has been taken.
3. Only parents or others listed on the child’s emergency card may check a child out anytime including during a disaster.

School Evacuation

If it should ever be necessary to evacuate students from the school, notice of the relocation site will be posted on the school gate and/or broadcast on the radio stations given below. If possible, another district school will be used as the relocation site.

School Closing for Inclement Weather

When weather or other conditions prevent most of the school buses from running, schools will likely close. Normally, the decision to close school is made by 6:30 a.m. If you question whether school will be open on a particular day, please tune in to one of the following stations to listen for school closings:

LANCASTER	PALMDALE	LOS ANGELES	SANTA CLARITA
KAVL 610 AM	KTPL 103.1 FM	KFI 640 AM	KBET 1220 AM

APPENDIX E: EARTHQUAKE PREPAREDNESS TEACHERS' GUIDELINES

When you feel a quake give students the command to **“Drop, Cover, and Hold”** and do so yourself immediately. Begin **“Quake Chatter”** and continue it. Stay covered until the initial shaking is over.

1. Quake Chatter:

- Even older students will be calmer if the teacher stays calm and continues to talk during and immediately after the shaking.
- In a controlled, firm voice, state that we are having an earthquake. Keep holding on. The shaking will stop in a minute.
- Continue “quake chatter” throughout the shaking and after.
- When the shaking is over, ask: “Is everyone all right? Please check yourself and each other. Is anyone hurt?”
- If possible, have students return to their seats before evacuating.
- Remove these guidelines from the wall and review them if possible.

2. Assess the Situation:

- Is there severe structural damage?
- Fire?
- Toxic spill?
- If your door is jammed, look for an alternate way out including windows.
- If necessary, break a window. Call for help by shouting and or blowing your whistle.

3. Assess Injuries:

- The teacher makes a quick assessment of injuries to students (triage).
- Unless there is fire, severe damage to structure or a hazardous materials spill, the teacher uses first aid for critical injuries.

4. Decision to Evacuate:

- The teacher makes the decision to stay put, evacuate, or delayed evacuation based on his/her evaluation of the situation.
- The teacher takes a quick look at the evacuation route from the classroom to be sure that it appears clear and safe. Can you exit? Should you exit?
- Decide to evacuate students as soon as this can be done, safely and calmly.

5. Evacuation:

- Get your disaster backpack and especially your roll sheet.
- If the situation allows, have students get their coats/sweaters.
- When you feel you have control, explain to the students: “We are going to calmly leave the building and go to our usual line up place. Be sure to stay away from overhangs, electrical wires, and buildings as much as possible.”

- Assist students to exit in a quick and orderly fashion. If some students cannot be moved, get the rest out first.
- Have classroom leaders lead students to the usual meeting point. Be careful to avoid overhangs, electrical wires, buildings, trees, etc.
- Be alert for aftershocks. Give the “drop, cover, hold” command if an aftershock occurs.

Mark your door for the search and rescue team: Apply the Green / Red laminated card to the outside classroom door, exposing the desired color visibly outward, which denote the current situation for that particular room or building.

SEARCH AND RESCUE DOOR MARKINGS

SITUATION	MARK
Class is out of the room. No one is present.	Green
Class is out but Immediate rescue needed for 2 people	Red
Class is out but Delayed rescue is needed for 1 person with non-life threatening injury.	Red
Search and rescue team has entered room and search is in progress.	Remove Card
Search and rescue team has completed search and exited. All is clear	Green

6. Assembly Area:

- Seat students once you arrive at your line up point in preparation for aftershocks.
- Locate your partner teacher if possible.
- Check rolls and notes any missing students on your roll and the reporting sheet. If your partner teacher is missing, note this also.
- Turn in reporting sheet. Give the form to person collecting them or see that it gets to the command center.
- Try to stay calm at least on the outside. Children suffer greatly from seeing adults out of control. Talk to your students; assure them.

7. Assigned duties:

- Many teachers will be assigned to specific duties such as Search and Rescue Teams, First Aid Teams, or Check-Out Station.
- If you're assigned a duty, turn your class over to person assigned to supervise them as soon as you can and report to your first assigned duty.
- If person is unavailable; locate someone else to supervise your class so that you can begin your assigned duty.

8. Injured Students:

- Check all students and give first aid if needed. Be alert to students who begin to hyperventilate or go into shock.
- Have another teacher supervise your class while you escort a student to the first aid station if more than minor first aid is needed. Review where the first aid station is to be set up on the disaster map for your campus.

9. Student Check-Out:

- Students must be checked-out through the check-out station.
- Students may only be checked-out to a person listed on the emergency card.
- When a student is called for by a messenger, parent or other person for check-out, note the time, date and person you turned the student over to. Note this information on your roll sheet.

10. Toilet Facilities:

- Students may be allowed to go the designated outdoor toilet area once the facilities are set up. (See the Disaster Map for your campus).

11. Civil Service Workers: All school employees will become Civil Service Workers in the event of a disaster

- Employees may leave campus only when officially dismissed by the principal, superintendent, or designee from duty.
- At the dismissal time, the employee will sign out at the Communication Center and indicate his/her destination. In the event a family member contacts the school asking about the employee's whereabouts, your destination upon leaving the school will be provided to the family member.

APPENDIX F: SEARCH AND RESCUE TEAM GUIDELINES

1. Go to the disaster supply container location to get your search and rescue backpack. Then go immediately to your assigned area and meet with other members of your team.
2. Determine if the building is safe to enter. It is not safe to enter a building if:
 - It is off of its foundation
 - The ceiling is collapsed
 - Wall or walls are collapsed
3. If building is unsafe to enter:
 - Try to determine if there are any occupants by calling out.
 - Notify the command center if the building is not safe to enter.
 - Notify the command center if there are occupants who cannot be rescued.
 - If there are occupants and you cannot enter, follow through to make certain help is provided as quickly as possible.
4. Feel the door for heat before you enter a building:
 - Do not enter if the door is hot indicating the building is on fire.
 - Use fire extinguishers if appropriate.
 - Notify the command center immediately of fire. Give room number or location of the fire. Follow through to make certain this urgent situation receives immediate attention.
5. Do not enter a building alone:
 - Wait for one or more of your search and rescue team or another available person to join you.
6. Mark the door before you enter:
 - Remove the laminated card to indicate that the search and rescue team has entered.
 - Attach the laminated card red side outward on the door indicating if there are people waiting for rescue.

SEARCH AND RESCUE DOOR MARKINGS

SITUATION	MARK
Class is out of the room. No one is present.	Green
Class is out but Immediate rescue needed for 2 people	Red
Class is out but Delayed rescue is needed for 1 person with non-life threatening injury.	Red
Search and rescue team has entered room and search is in progress.	Remove Card
Search and rescue team has completed search and exited. All is clear	Green

1. Search the room:

- Enter the room with your partner and say loudly, "Is anyone in here? Come to me now."
- Do a "right wall, left wall" search with your partner. Use a rope to widen your search
- Use triage procedures to classify any victims located.
- Take persons needing treatment to the first aid station. Get a stretcher(s) from the disaster supply container to transport persons who cannot or should not transport themselves. Return stretcher to the disaster supply container or a pre designated area in when you no longer need it.
- After completing search and rescue in a room, place the green side (Facing outward) on the door to indicate the room has been searched and cleared.
- Proceed to your next location until all rooms have been searched.

2. Notify to the command center when all rooms in your area(s) have been searched. Proceed to your next assignment.

Note: Use of judgment is essential during search and rescue. Not every dangerous situation is covered by the guidelines and procedures listed here. In situations for which no guidance has been provided, or when guidance furnished is not appropriate, the search and rescue teams must rely on their collective experience and judgment.

APPENDIX G: TRIAGE GUIDELINES

Immediate Classification

These students get priority medical care and transportation to an advanced care facility. These victims are critically injured, life threatened, but salvable. They will die within one hour or less without further treatment and require immediate field intervention to survive.

1. After assignment to the immediate classification, the students are then further divided into two additional groups. The two sub groups are the immediately life threatened, and the potentially life threatened.
2. Injury patterns seen in this group include:
 - Head injuries with decreasing level of consciousness:
 - Airway/chest injuries with associated cardio reparatory or respiratory compromise:
 - Shock associated with hemorrhage:
 - Blunt or penetrating abdominal trauma;
 - Life threatening fractures such as femur, pelvic, etc.
 - Third degree burns over 25% BSA (body surface area) but under 50% BSA, excluding facial involvement.
3. Medical problems assigned to the immediate classification include:
 - Chest pain not associated with blunt trauma:
 - Suspected hypo/hyperglycemia:
 - Unconscious without associated trauma:
 - Obstetrical problems:
 - Seizures with or without trauma:
 - Hysterics requiring isolation from others:
 - Hypothermia
 - Hyperthermia

Delayed Classification

Anyone in this classification is considered to be a lower priority victim. Since this is a two-tiered system, the “delayed” group is a catchall for any victims other than those who are life-threatened or with salvable injuries. Therefore, the injuries seen in this classification include:

1. Serious injuries, non-life-threatening, including:
 - Fractures with distal pulse
 - Serious lacerations requiring repair
 - Third-degree burns less than 25% BSA
 - Second-degree burns of any percentage
 - Injuries to the eye
 - Spinal cord injuries

Delayed Classification (continued)

2. Minor injuries requiring first aid treatment only and the non-injured. This group can be transported to an ambulatory holding or evacuation center. They do not need to tie up hospital facilities.
3. The dead at scene. These are sent to a common morgue area.
4. Critically injured, seriously life-threatened, non-salvable patients.

APPENDIX H: SUICIDE PREVENTION/RESPONSE PLAN

The publications of many organizations and governmental agencies contain advice for people who are faced with suicidal people. That advice is summarized below.

Do's

- | | |
|-----------------|--|
| Listen | to what the person is saying and take her/his suicidal threat seriously. Many times a person may be looking for just that assurance. |
| Observe | the person's nonverbal behavior. In children and adolescents, facial expressions, body language, and other concrete signs often are more telling than what the person says. |
| Ask | whether the person is really thinking about suicide. If the answer is "YES," ask how she/he plans to do it and what steps have already been taken. This will convince the person of your attention and let you know how serious the threat is. |
| Get Help | by contacting an appropriate Crisis Response Team member. Never attempt to handle a potential suicide by yourself. |
| Stay | with the person. Take the person to a CRT member and stay with that person for a while. The person has placed trust in you, so you must help transfer that trust to the other person. |

Don'ts

- | | |
|--------------|--|
| Don't | leave the person alone for even a minute. |
| Don't | act shocked or be sworn to secrecy. |
| Don't | underestimate or brush aside a suicide threat ("You won't really do it; you're not the type"), or to shock or challenge the person ("Go ahead. Do it"). The person may already feel rejected and unnoticed, and you should not add to the burden. |
| Don't | let the person convince you that the crisis is over. The most dangerous time is precisely when the person seems to be feeling better. Sometimes, after a suicide method has been selected, the person may appear happy and relaxed. You should, therefore, stay involved until you get help. |
| Don't | take too much upon yourself. Your responsibility to the person in a crisis is limited to listening, being supportive, and getting her/him to a trained professional. Under no circumstances should you attempt to counsel the person. |

Suicide Emergency Response Plan

School Counselor / Administration / Security Protocol

1. In all incidents of suicidal behavior, the counselor and / or principal should be involved. If applicable, the school nurse and security personnel should be involved also.
2. With all mid-level and high level incidents, parent contact should be made. The principal and counselor will determine if parent contact should be made with low-level cases as they continue to closely monitor the situation.
3. In all cases, maintain thorough documentation of the incident and the responses.
4. With all mid-level risk students, a parent should come to school, talk to the school counselor, and pick-up the student. As part of sharing information and concern with the parent, the counselor/principal should recommend that parent take the student as soon as possible to have a professional assessment done.
5. With high-level risk students, declare a medical emergency. If applicable call 911 immediately. A high-risk student should be discharged to the parent or transported by county or ambulance services, in cases where the parent is unavailable. While discussing the situation to the parent(s), recommendation to them that safe transport should be used (i.e. police, ambulance) when transporting a student to an assessment. If the parent(s) decline, document it and always have a witness.
6. In the event that the parent(s) does not follow through with the official assessment when warranted, a complaint should be reported to the Los Angeles County Department of Children and Family Services.

Spectrum of Suicidal Behavior Levels

Low Acute Risk: Low-level involves thoughts and ideations. The student has fleeting reactions to depression and stress with a specific stressor, but has good coping skills.

Moderate Acute Risk: Mid-level risk involves ideations and gestures. The student may threaten with weapon in hand, but make no actual attempt. The student has high stress and low coping skills and lack of supports.

High Acute Risk: High-level risk involves para-suicide, suicide attempts or completions. The student attempts at a low level of lethality (para-suicide) or attempts at a moderate to high level of lethality or completes, resulting in death.

Suicide Risk Threat Assessment Procedure

1. Staff members refer students to Counselor and/or Psychologist for risk assessment if a student expresses suicidal ideation or intent. A risk assessment may also be requested if student displays any warning signs or risk factors.
2. School Psychologist or Counselor conducts a suicide risk assessment and develops a suicide risk formulation.
 - a. **Low Acute Risk Intervention Plan**
 - i. Support personnel will increase contact with identified student
 - ii. Provide resources (outside agencies and hotlines)
 - iii. Support personnel will determine if parent contact should be made
 - iv. If necessary, increase parent monitoring of student safety
 - v. When applicable, collaborate with staff to reduce student stressors
 - b. **Moderate Acute Risk Intervention Plan**
 - i. Support personnel will increase contact with identified student
 - ii. Consider hospitalization (may include contacting the Psychiatric Mobile Response Teams for an emergency level risk assessment, PMRT may decide that hospitalization is required in which case parent will be

notified and the student will be transported by county or ambulance services)

- iii. Develop safety plan
- iv. Provided crisis contact information to student and parent(s)
- v. Conduct conference with student and parent(s)
- vi. When applicable, collaborate with staff to reduce student stressors

c. High Acute Risk Intervention Plan

- i. PMRT will be contacted for an emergency level risk assessment, if PMRT decides hospitalization is required parents will be notified and student will be transported by county or ambulance services)
- ii. Team meets to identify current needs and adjust interventions accordingly

Suicide Attempt on Campus

- 1. Treat attempted suicide as a medical emergency and call 911 immediately. The law enforcement officer who responds will follow regulations authorized by their department.
- 2. Notify the administration or his / her designee.
- 3. Student's personal belongings must be searched for possible weapons and or contraband; relating to the attempted suicide.
- 4. Talk to witnesses, see if they are willing to share and complete an incident statement.
- 5. Counselors, Psychologist, and support personnel will be available to provide support. A plan will be developed to provide continuous support.

Suicide on Campus

- 1. Designate a person to secure the area until the arrival of security personnel and / or law enforcement.
- 2. Activate the School Emergency Response Plan
 - * Designated staff should report to the entrances and exits of the building, parking lots, etc.
 - * All other members of the Crisis Management Team should begin their duties.
 - * Notify principal and / or designee.
- 3. The principal or designee will dispatch the appropriate members of the District Crisis Team to the scene.
- 4. Counselors, Psychologist, and support personnel will be available to provide support. A plan will be developed to provide continuous support.
- 5. Furnish law enforcement and / or medical examiner the names, addresses and phone numbers of the parents / guardians or the nearest relative.
- 6. If needed, contact the Los Angeles County Department of Mental Health to provide back-up counseling assistance.
- 7. Media inquiries should be directed to the District Office.
- 8. Gather information about siblings and other relatives and the school they attend. Update any affected principals and relay any pertinent parent information.

Suicide Postvention Strategies

- 1. Do not allow peer counseling.
- 2. Do not have mass meetings or assemblies of students after the suicide.
- 3. Do not have a memorial program at school or do anything that might glamorize or romanticize suicide which can lead to copy-cat incidents.
- 4. Do not make announcements of the suicide over the intercom.
- 5. Schedule a faculty meeting as soon as possible after the suicide occurs to ensure that all teachers and staff are informed of the facts surrounding the incident.
- 6. Advise the faculty and staff of media procedures.

7. Discuss with teachers the need for them to set a tone of caring and listening, yet business as usual.
8. Continue class schedules with as little change as possible.
9. School counselors and teachers should provide limited factual information about the suicide to students.
10. Identify at-risk students for counselors to see:
 - * Friends of the deceased
 - * Relatives of the deceased
 - * Students who appear to feel guilty (recent argument with deceased)
 - * Students who knew about suicide plan and kept it a secret or did not take person seriously.
 - * Any student who has a personal history of suicidal attempts or threats.
 - * Any student who identified with the deceased's situation.
11. Encourage students to remain at school throughout the school day.
12. If a student leaves early, notify the parent/guardian of the situation at school and the need to monitor the student's emotional state.
13. Contact the parent/guardian of any student who appears to be experiencing difficulty coping with the situation.
14. Designated staff members will monitor the campus, particularly any secluded areas.
15. As time passes, be cognizant of anniversaries and holidays that might induce stress.

Suicide Threat Procedures

1. Send another teacher or student to contact the school counselor or administrator immediately.
2. Remain calm, and stay with the student. Keep in mind that the student may be overwhelmed, confused, as well as ambivalent.
3. Get vital information if possible, such as name, address, home phone number, and parent/guardian work number.
4. Clear other students from the scene. Direct them to another classroom or area.
5. Assure the student that he/she has done the right thing by talking to you. Assure the student that help is coming. Tell the student that there are options available.
6. A parent/guardian must be contacted immediately.

Do Not:

1. Do not minimize the student's threat. Take it seriously.
2. Do not leave the student.
3. Do not lose patience with the student. Allow for silence. Give the student time to talk.
4. Do not argue with the student about whether suicide is right or wrong.
5. Do not promise confidentiality. Tell the student that you are required by state law to report the situation to the parent/guardian. Also, tell the student that help is available and that you are going to state the process for getting help.
